NEXT MEMBERSHIP MEETING TUESDAY, NOVEMBER 27, 2018

Doors open at 6:30 PM - Meeting Starts ~ 7:00 PM

VDGIF HEADQUARTERS BUILDING
7870 Villa Park Drive

BACKLASH

*Commentary from the
Board of Directors
-By John Wetlaufer, Sr.*

TWO RAFFLES AT THE NOVEMBER MEMBERSHIP MEETING

Special Activities Chairman will make up for the October raffle that was to be part of the cancelled October Meeting.

ANGLING RULES COMMITTEE - NO ANGLING RULE CHANGES FOR THE 2019 ANGLING YEAR

Angling Rules Committee Chairman Fred Cousins reports that no Member submitted suggested angling rules changes for the 2019 Angling Year. Therefore, the committee had no rule changes to bring to the attention of the Directors for their approval.

NOVEMBER PROGRAM BUILDING AN AMAZING CENTER CONSOLE

VAC Member and North Carolina Resident Brendan Strum had total access to the Regulator Marine manufacturing plant in Edenton, NC and has documented the step-by-step construction of a Regulator 31 with twin 300hp Yamaha 4 strokes hung on a bracket at the stern. This is a rare chance to see how one of the sturdy, sleek and popular center console boats are manufactured from a drum of resin to the finished product moored at the dock. Where's the dock? Actually, the 31 is moored at the bulkhead behind Brendan's home in Pirates' Cove in Nags Head, NC.

The Regulator 31

THE 2019 ANGLING YEAR STARTS DECEMBER 1, 2018

Remember, the 2019 Angling Year starts at midnight, December 1, 2018. To get credit for consideration for record catches made in 2018, be sure to get any outstanding catch entry cards entered before midnight, November 31, 2018. The same submission requirement applies to get 2018 recognition for individual achievement awards. All such awards will be awarded at the VAC 2018 Angling Year Annual Banquet

VAC SURF TEAM REPORT – 2018 CAPE HATTERAS ANGLERS CLUB INVITATIONAL SURF TOURNAMENT

By Danny Noland - VAC Surf Team Captain

“Wish I had better things to report, but the “luck of the draw” wasn’t very lucky. I knew that as soon as I looked at the stations and the tides after I drew. The team fished hard every round with the conditions being brutal, with 20-25 knot NE winds, gusting to 30-35 knots, plus rain in all but the last hour of the final round. When I saw one little ray of sun pop out over the water, then disappeared, my first thought was of George Clooney saying “It’s not going to let us out”, right before the 100 foot wave hit the Andrea Gail. That’s what the conditions felt like, ocean was angry.

Our team finished in 60th place (out of 120 teams) with 8 fish for 17 points. Tournament was won by the “Outcasters” women’s team from the Nags Head area. They got onto some bluefish in the first round with 35 fish, and that lead all four rounds adding a few fish to total in remaining rounds. A well-deserved win, after about first three places, points and number of fish dropped off rapidly.”

The below picture was taken just after the last cast was made in the 2018 Cape Hatteras Anglers Club Invitational Surf Tournament. Note the multiple breaks rolling in over a long flat beach.

The 2018 Virginia Anglers Club Surf Fishing Team

CALENDAR SALES YIELD \$750 FOR GENERAL FUND

Special Activities Chairman Don West has closed the books for the 2018 Annual Sale of the 250 VDGIF Outdoor Calendars by Members of the VAC. Notable individual sales were “over 100” by Don himself. Another multiple sale was booked by Jeff Doughty who sold 58 calendars. There was even one non-member that annually sells multiple calendars to friends of a deceased member who formerly sold to these same friends. Thanks to all Members who sold multiple calendars or purchased

John Wetlaufer, Sr.,
VAC Director & Membership Chairman

VAC LEADERSHIP TEAM ROLES NOW ON THE WEBSITE

Website Assistant Eric Webster has added a list of the roles (job descriptions) of the various positions on the Leadership Team. To view this listing, open the Members Area of the VAC website and under “Membership”, open Officer Role Descriptions.

RISK OF HYPOTHERMIA INCREASES AS WATERS COOL

As the temperatures of the water in which we fish and the air above these waters continue their seasonal decline, the effects of hypothermia become more severe and more difficult to reverse. Take a thorough look at the below information issued by the United States Coast Guard. The data presented shows the increase in the severity of hypothermia as the water temperature declines.

HYPOTHERMIA RATES

Water Temp	Loss of Dexterity (with no protective clothing)	Time to Exhaustion or Unconsciousness	Expected Survival Time
32.5 °F	Under 2 min.	Under 15 min.	Under 15 - 45 min.
32.5-40 °F	Under 3 min	15 to 30 min	30 to 90 min
40 - 50 °F	Under 5 min	30 to 60 min	1 to 3 hrs
50 - 60 °F	10 to 15 min	1 to 2 hrs	1 to 6 hrs
60 - 70 °F	30 to 40 min	2 to 7 hrs	2 to 40 hrs
70 - 80 °F	1 to 2 hrs	2 to 12 hrs	3 hrs to indefinite
> 80 °F	2 to 12 hrs.	Indefinite	Indefinite

FIRST AID FOR HYPOTHERMIA **(By the Staff of the Mayo Clinic)**

Hypothermia occurs when your body loses heat faster than it can produce heat and your body temperature falls below 95 F (35 C). Left untreated, it can be life-threatening.

Hypothermia is often caused by exposure to cold weather or immersion in a cold body of water. It can also be caused by ongoing exposure to indoor temperatures below 50 F (10 C). You could be at increased risk if you're also exhausted or dehydrated.

Signs and symptoms of hypothermia usually develop slowly and may include:

- Shivering, though this may stop as body temperature drops
- Slurred speech or mumbling
- Slow, shallow breathing
- Weak pulse
- Clumsiness or lack of coordination
- Drowsiness or very low energy
- Confusion or memory loss
- Loss of consciousness
- Bright red, cold skin (in infants)

Seek emergency medical care

If you suspect someone has hypothermia, call 911 or your local emergency number. Then immediately take these steps:

- Gently move the person out of the cold. If going indoors isn't possible, protect the person from the wind, especially around the neck and head. Insulate the individual from the cold ground.
- Gently remove wet clothing. Replace wet things with warm, dry coats or blankets.
- If further warming is needed, do so gradually. For example, apply warm, dry compresses to the center of the body — neck, chest and groin. The CDC says another option is using an electric blanket, if available. If you use hot water bottles or a chemical hot pack, first wrap it in a towel before applying.
- Offer the person warm, sweet, nonalcoholic drinks.
- Begin CPR if the person shows no signs of life, such as breathing, coughing or movement.

Caution

- Do not rewarm the person too quickly, such as with a heating lamp or hot bath.
- Don't attempt to warm the arms and legs. Heating or massaging the limbs of someone in this condition can stress the heart and lungs.
- Don't give the person alcohol or cigarettes. Alcohol hinders the rewarming process, and tobacco products interfere with circulation that is needed for rewarming.

WANTED

VAC VIDEOGRAPHER

The VAC is looking for a Member to volunteer to be the VAC Videographer. The video person will be asked to take videos of the presentations at the Membership Meetings and other VAC events at which a record video will be useful the Members. The Videographer will work with the Website Secretary and Web Assistant to post videos on the Website as appropriate.

FOR SCALE CERTIFICATION, PLEASE CONTACT:

Larry Allen at: (804)-781-0907 (H), (804)-241-3706 (C)
or allenhouse75@comcast.net

Ryan Noland at: (804)-658-1955 (H), (894)-896-4178 (C)
or ryan.n.noland@usa.dupont.com

Please remember to be sure your scales are in working order, the barrels are oil free and are placed in a Zip-Loc type re-sealable plastic bag with your name written on the outside.
